

**Золотые рыбки-  
рукотворное чудо**

A vibrant aquarium scene featuring a variety of goldfish. The fish display a wide range of colors and patterns, including bright orange, white with orange spots, solid red, and black. Some fish have long, flowing tails, while others are more compact. They are swimming among lush green aquatic plants, creating a lively and colorful environment. The text "Породы золотых рыбок" is overlaid in the center in a white, bold font.

Шубункин

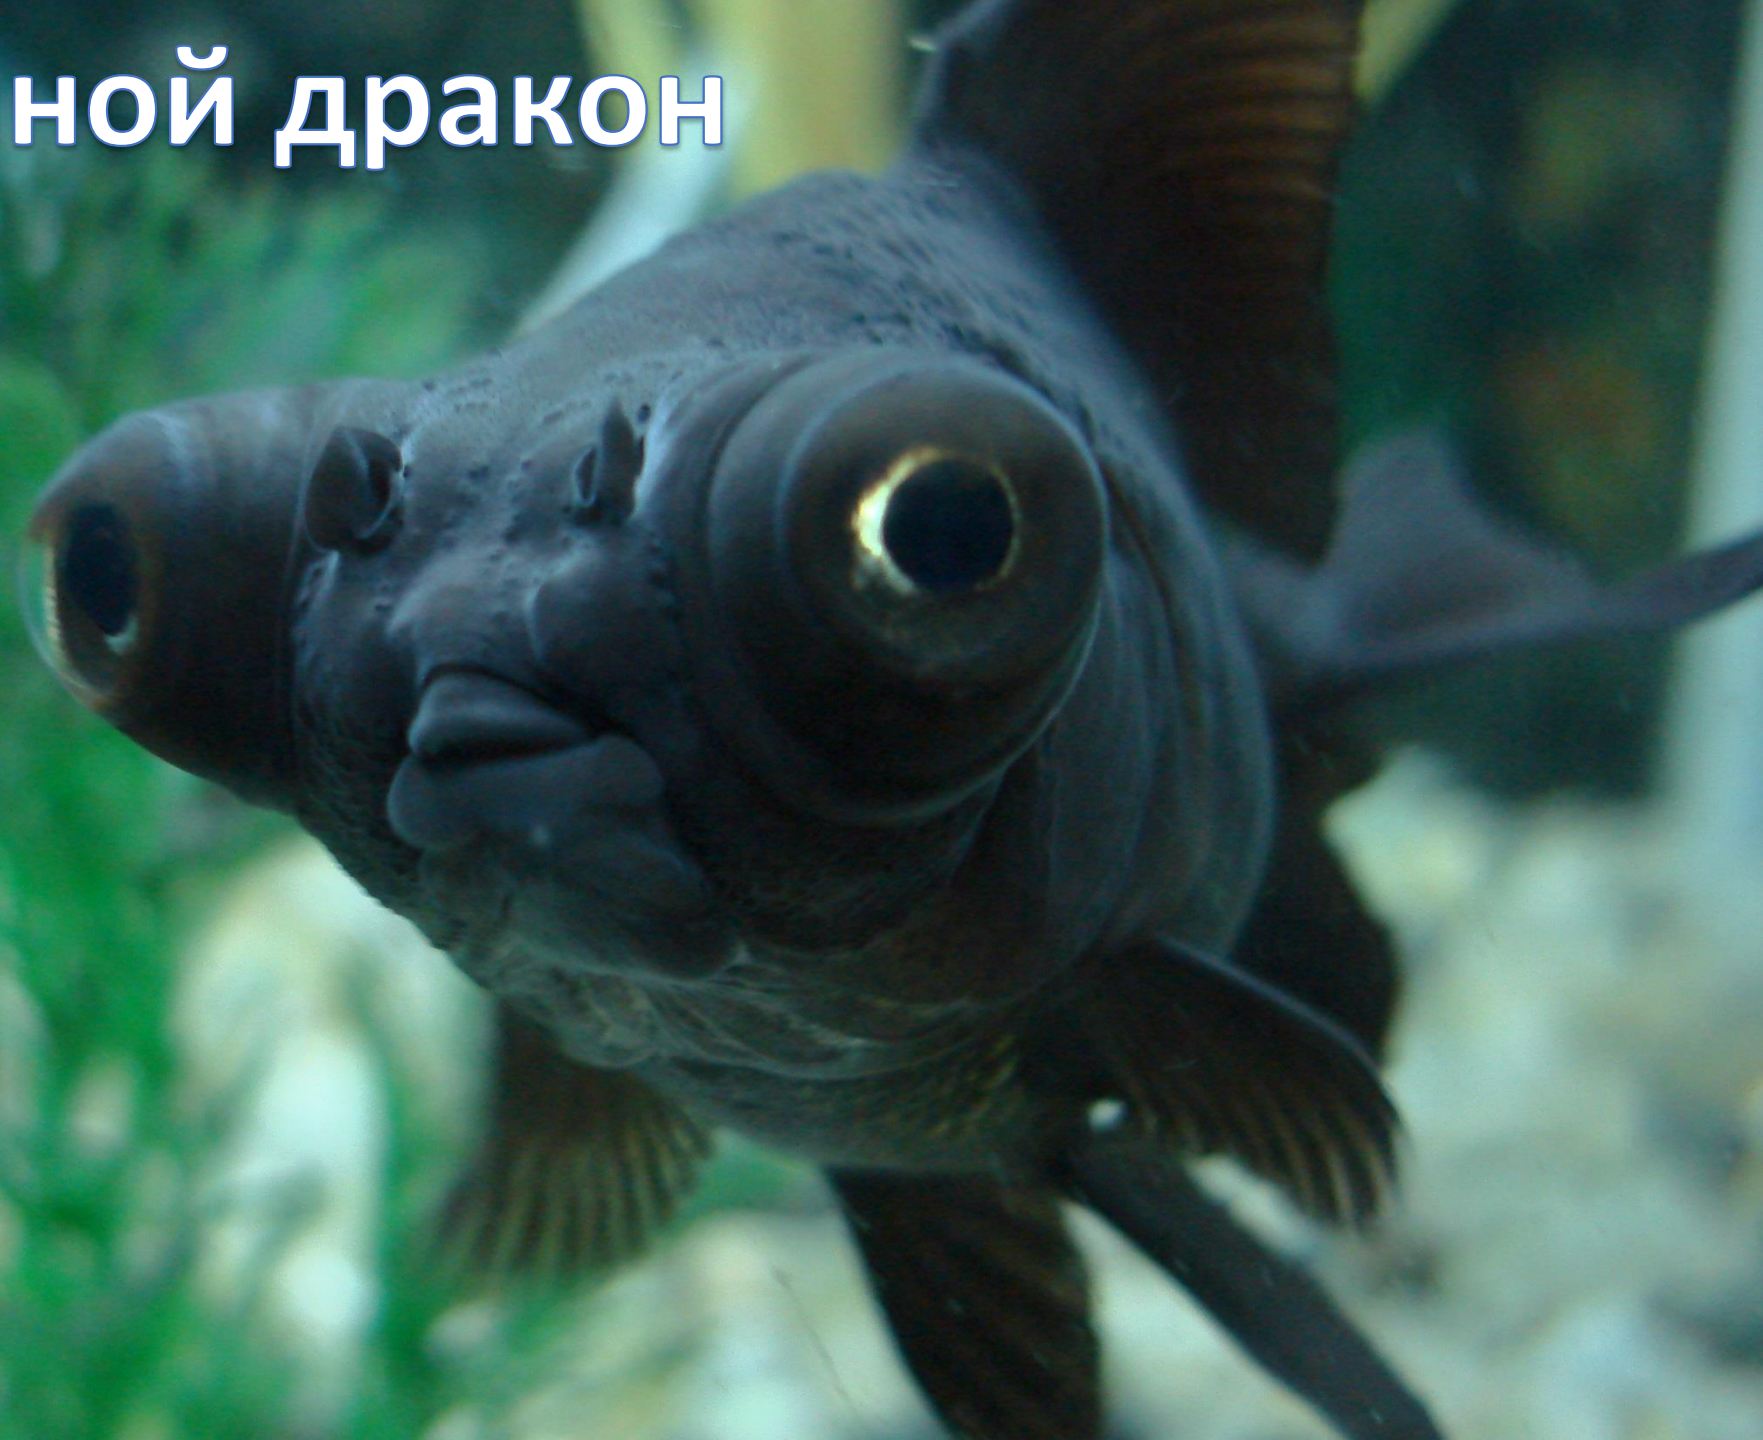

# Львиноголовка

A black Telescope Goldfish is shown in an aquarium. The fish has a dark, almost black body with a prominent, rounded, protruding snout. Its scales are visible and have a fine, textured appearance. The fish is positioned in the center-left of the frame, facing right. The background is a vibrant green, likely due to artificial lighting or a background panel. The foreground is filled with a bed of small, multi-colored pebbles in shades of white, blue, and green. The overall scene is brightly lit, highlighting the fish's features and the surrounding environment.
